

To:

The great State of Texas continues to decay at a rate of decline never seen before, along with the rest of our country. Now, more than ever, it is imperative for our representatives to lead the battle to maintain the conservative values imprinted on most Texans.

As my representative, please act on the following conservative priorities, which are of tantamount importance to me as your constituent. I, hereby, request:

- ☐ Higher penalties for election fraud and clear, fair, and auditable elections.
- ☐ Protect our border and end illegal immigration.
- ☐ Stop programs targeted to indoctrinate children and ban sexual education for Pre-K through 3rd grade, as well as banning sexually explicit books in school libraries and curricula.
- ☐ Protect our monuments.
- ☐ End human trafficking.
- ☐ Stop gender modification in children.
- ☐ Put an end to property taxes without imposing a state tax.

I implore you today, to be like the pioneers and founders of Texas, and lead right and first for the people of Texas, even if it sparks an unpopular conjecture with most of the leadership in Austin. We the People will back you. Thank you and God bless.

With sincere regards,
